## **UADF & U.S. Law Shield FAQs**

Since the inception of UADF, it has always been our intent to supply members with access to discounted training, equipment, ammunition, and insurance. Ensuring the protection of our members is a top priority, therefore, UADF has partnered with U.S. LawShield to provide access to legal protection for members in the event of having to discharge a weapon to stop a threat.

A portion of your monthly membership fees has always been intended to be utilized to further protect and serve our members. **Q: Why am I receiving payment and cancelation emails from U.S. LawShield?**

A: UADF put membership for U.S. LawShield on hold until we were able to comb through and verify OUR member's information. Due to several data updates, we wanted to ensure the information we provided to U.S. LawShield was accurate and still currently valid. All members U.S. LawShield had processed prior to the hold being placed received those emails automatically. These emails can be disregarded as UADF is already established to cover the membership for U.S. LawShield.

**Q: Am I only covered during official UADF events?**

A: As a member of UADF you are covered by U.S. LawShield and your coverage applies at all times, during personal time and during UADF events within the state.

**Q: How much of my personal information is shared with US LawShield?**

A: The only information given to US LawShield is basic: name, address, phone number and email. This will enable them to set up your coverage based on the state you reside in and communicate with you regarding your membership.

**Q: Does having U.S. LawShield coverage automatically imply that I own a firearm? How will this membership affect members or members' spouses who may be convicted felons?**

A: As U.S. LawShield Members, you will be covered in the event that you must defend yourself if your life is in danger. U.S. LawShield is NOT just for Firearms. We cover all other LEGAL weapons too. Your hands, your keys, your phone, or any other object that may be accessible to you in a situation of defense. A membership for the gun owning spouse should have no effect (positive, negative, otherwise) on the felon spouse. In fact, were the felon spouse forced to grab the gun to defend the household in an emergency, USLS would likely cover that event (if the felon spouse was a member) because the common law "defense of necessity" would render that temporary possession of the gun lawful.
